Dublin / Ireland

Dublin was founded by the Vikings in 841, it is Ireland's capital city, steeped in history and buzzing with energy. Medieval, Georgian and modern architecture provide a backdrop to a friendly cosmopolitan city. Dublin is a thriving centre for culture and is home to a great musical and literary tradition. The city's attractions include castles, museums, art galleries, pubs and cafes. Within half an hour of the city are mountain walks, stately homes and gardens, numerous golf courses, sandy beaches and fishing. The conference will be held in Ireland's newest congress venue, The Convention Centre Dublin situated right in the city centre of Dublin. Dublin is easily accessible from the UK, Continental Europe, the east and west coasts of the USA and Canada, and the Middle East. More than 36 scheduled airlines fly into Dublin Airport, which is located 12 km from the city centre.

Themes, Call for Abstracts & Important Dates

The Congress theme – Unlocking the Demographic Dividend – aims to tap into the growing awareness that gerontological research can help us to understand the collective and personal benefits that we gain from population ageing, a better understanding of the barriers to realizing the full potential of the Demographic Dividend, and the advances in gerontological science which allow these barriers to be overcome in the most effective way possible.
